

**Tahoe Transportation District

Update  
June 4, 2009**

Due to the overwhelming response to the Tahoe Transportation District's (TTD) Request for Qualifications for Various Professional Services, the review and evaluation process is taking longer than anticipated. At present time, the TTD has developed a Priority 1 list based on the firm's qualifications, as well as the TTD's immediate need. The Priority 1 list consists of the following firms:

The firms included in the Priority 1 list will be evaluated by the Selection Committee to determine which firms will be selected to be on the "Short List" making them eligible for contract negotiations with the TTD. Our current schedule is to have the "Short list" finalized by June 26, 2009, with select contract negotiations to follow.

Firms that did not make the Priority 1 list are not necessarily removed from the opportunity to provide services, as there may be a future need to utilize a particular firm from either Priority 1 or Priority 2 list. Firms will be contacted on a case by case basis as the need arises.

The TTD would like to thank all of the interested firms who participated in this process and would like to encourage your participation in future contract opportunities.
