**Response to Questions regarding
“Request for Proposals for Bulk Automotive Fluids”**

Questions	Response
<ul style="list-style-type: none"> Our insurance does currently meet all of the requirements from Section C. My manager is wondering if we need to provide any additional liability coverage that states that we would be a contractor for TTD or can that wait till after the decision for the bid is made? 	<p>TTD does not need to be listed as additionally insured until after the decision for the bid is made and the agreement process started.</p>
<ul style="list-style-type: none"> On exhibit B, page 2, it asks for a complete compensation for the entire term of the contract. To be able to fill that out completely I would need the estimated oil and chemical usage of TTD per year please. 	<p>Yearly estimates are as follows:</p> <ul style="list-style-type: none"> 15w40 – 800 gal SynATF – 525 gal Extended life coolant – 725 gal 80w90 – 110 gal DEF – 660 gal Windshield wash – 660 gal Synthetic oils - roughly 15 gal of each weight
<ul style="list-style-type: none"> Are bidders required to bid on all line items and package sizes? 	<p>Bidders are not required to bid on all listed items. If you have an equivalent weight, package size, or product to recommend please include in the proposal. Please list "n/a" for any items requested that you do not have available for bid.</p>
<ul style="list-style-type: none"> <u>Line Item-Synthetic Engine Oil-15W40 equivalent to Royal Purple/Mobil1:</u> What application is this product used for? Vehicle type? 	<p>This is used in Class 1 - 3 vehicles ranging from small equipment with Doosan engines to 1 ton pickups.</p>
<ul style="list-style-type: none"> <u>Line Item-Synthetic Engine Oil-15W40 equivalent to Royal Purple/Mobil1:</u> Will TTD accept 5W-40 Full Synthetic as an alternative? 5W-40 would presumably meet the same specifications and offers a wider temperature range that would suit your application 	<p>Preferred weights are listed for our applications; however, if you would like to include "equivalent products" please list the product and what it is equivalent to that has been requested on the proposal.</p>
<ul style="list-style-type: none"> Do you own your own bulk tanks or are they property of the previous supplier? 	<p>We own our tanks.</p>

<ul style="list-style-type: none"> • What size are the bulk tanks? 	<p>Currently in use is a 250 gal tank used for 15w40. We also have another 300 gal tank (will be used for 15w40) and a 75 gal tank (will be used for SynATF) that is in the process of being set up.</p>
<ul style="list-style-type: none"> • Do you have a yearly estimate of total fluids gallons used per month or year? 	<p>See above</p>
