**DEVELOP A MULTI-JURISDICTIONAL HAZARD MITIGATION PLAN**

May 9, 2022

P.O. Box 499

## *INTRODUCTION*

The Tahoe Transportation District (TTD) is seeking the services of a qualified consulting firm to develop a multi-jurisdictional hazard mitigation plan (HMP) for the California portion of the Tahoe Basin on behalf of TTD. TTD is a bi-state, special purpose transportation district that delivers capital projects in the Lake Tahoe basin. Examples of TTD projects include road realignments, bridges, roundabouts, complete streets, parking, shared use paths, and transit facilities. These projects are located in both California and Nevada and require cooperation and involvement from various federal, state and local entities, including the Tahoe Regional Planning Agency (TRPA), federal agencies, state agencies, counties, cities, and other local jurisdictions.

All of TTD's projects serve transportation purposes and help to accomplish regional transportation goals. At the same time, some of TTD's projects also create development opportunities that further other public purposes and goals.

Supporting project information for TTD can be found at <http://tahoetransportation.org>.

This Request for Proposals (RFP) is being reissued due to project delays. It describes the general Scope of Services, necessary proposal components, selection process, and required format of the proposals, as well as a sample of TTD's standard contract (Agreement for Services).

The firm responding to this RFP shall be a firm, organization or vendor licensed to conduct business in their respective disciplines in the State of California and Nevada.

TTD reserves the right to award any number of contracts it deems necessary. This RFP does not commit TTD to award a contract. TTD reserves the right to accept or reject any or all proposals. No proposal shall be binding upon TTD until after a contract is executed by duly authorized representatives of TTD and the selected firm. No minimum amount of work is implied or guaranteed under the contract.

## *SCOPE OF SERVICES*

The successful firm's team shall have FEMA and CalOES hazard mitigation planning experience and be familiar with hazards relevant to the Lake Tahoe Basin. An HMP is needed for the Lake Tahoe Basin in order to assess the natural, technological, and human-caused risks to regional infrastructure and reduce the potential impact of those hazards by creating mitigation strategies. The HMP planning efforts represents TTD's commitment to create a safer, more resilient community by taking actions to reduce risk and by committing resources to lessen the effects of hazards on people and infrastructure.

The HMP will be developed as a living document that meets the requirements of DMA 2000. The Plan will work to reduce risks posed by hazards in order to protect the residential and visitor communities that enjoy Lake Tahoe. Since TTD's jurisdiction is bi-State and multi-jurisdictional; aligning with a hydrologic boundary instead of county boundaries; and mitigation strategies may cross state and county lines, the approach will be to complement the HMPs prepared by local jurisdictions. Tahoe Resource Conservation District will participate in the plan. An additional task order may be added at a later date to develop a complementary HMP on the Nevada side of the Basin, with additional coordination as needed with the State of Nevada. The Nevada HMP is not included in this current scope of work. **The California HMP Final Draft must be submitted to CalOES by May 31, 2023. The consultant must be available for FEMA Approval Pending Adoption.**

Completion of the HMP and approval by FEMA will allow TTD to reduce hazards through a coordinated effort. The HMP will help to protect the Basin, transportation resources, our staff, and the public, as well as provide the opportunity to directly apply for HMGP funding. The HMP will assist in reducing impacts from hazards by recognizing vulnerability in relation to risk, identifying resources, creating an orderly data collection process and developing strategies for risk reduction, while helping to guide and coordinate mitigation activities.

The HMP will include the following information and resources:

- ✓ Establish a basis for coordination and collaboration among agencies and the public, including visitors.
- ✓ Assist in the integration of mitigation goals and objectives with other TTD and multi-jurisdictional/multi-agency plans of the region.
- ✓ Identify existing mitigation projects and prioritize future projects.
- ✓ Assist in meeting the requirements of federal mitigation programs.
- ✓ Lay the foundation for future HMP updates and HMP maintenance.

In addition, the HMP is designed to ensure the long-term values of the community are not compromised in the course of preparing for, responding to, or recovering from natural and/or man-made hazards.

TTD recognizes the importance of disaster mitigation as part of an integrated program to assure the safety of Lake Tahoe's communities, facilities, and infrastructure. The integration of mitigation into all planning activities and TTD programs will be developed as part of the plan. TTD is not included as a special district within any of the counties HMP's that it serves but has participated in local jurisdiction plan reviews. The City of South Lake Tahoe and the counties that are within the area served by TTD will be included in the planning process.

The mitigation plan process includes four broad tasks:

- Organize resources
- Assess risks
- Develop the HMP
- Implement the HMP and monitor progress

The HMP will be integrated with existing plans and planning mechanisms. The planning effort will utilize the [Integrated Vulnerability Assessment of Climate Change in the Lake Tahoe Basin \(ca.gov\)](https://www.ca.gov/integrated-vulnerability-assessment-of-climate-change-in-the-lake-tahoe-basin)

TTD's emergency preparedness operations will be guided by the HMP, which can also guide and support asset management on project prioritization. Additionally, the HMP will inform capital improvement programs, corridor planning, and project implementation planning.

The consultant will be tasked with developing the HMP. The consultant's team will be responsible for addressing all sections of the Plan. Key efforts include:

- Review of existing HMPs and timelines for updates
- Review of progress of implementation of those plans
- Review of existing TTD plans and other Regional Plans
- Assist in the identification of critical assets
- Hazards identification and risks assessment
- Mitigation strategies development
- Engagement with community and agency involvement in the planning process
- Solicitation and incorporation of feedback from external stakeholders and the public

For all tasks proposed under this RFP, TTD's Project Manager will provide the central point of coordination on all data sources and required plan elements, provide project oversight of Consultant's work, and timely review and approval of completed drafts and final work products. The consultant's responsibilities will be considered completed upon receiving FEMA's notification of an approved HMP plan.

If TTD elects to interview, the submitting firms shall be notified of the interview schedule. The same attached evaluation criteria form will be used for all reviews. All evaluators may use the information submitted in the firm’s proposal and presented at the interview, if applicable, to arrive at the final ranking.

**F. Negotiation and Award**

TTD will work with the selected firm to negotiate a contract with the selected firm. All costs incurred by the firm in connection with this work and negotiations shall be borne by the firm and the firm shall have no right to reimbursement from TTD. In the event of rejection, the firm shall have no right to reimbursement for costs incurred by the firm in connection with any work and negotiations. TTD shall proceed to negotiate with the next most qualified firm or consider reposting the RFP.

**G. Contract Duration**

Duration of the contract is through December 31, 2023. If a Nevada HMP is added to the scope, a date will be provided in the future. In the event of unanticipated delays, the project timeframe may be extended at TTD’s sole discretion, for a duration adequate to accommodate such delays.

TTD reserves the right to negotiate final contract terms with any firm selected. The contract between the parties will consist of the final executed contract, the RFP together with any modifications thereto, and the awarded firm’s proposal, together with any modifications and clarifications thereto that are incorporated at the request of TTD during the evaluation and negotiation process. In the event of any conflict or contradiction between or among these documents, the documents shall control in the following order of precedence: the final executed contract, addenda to the RFP, the RFP, any modifications and clarifications to the awarded Proposer’s proposal, and the awarded Proposer’s proposal. Specific exceptions to this general rule may be noted in the final executed contract.

No announcement concerning the award of a contract as a result of this RFP can be made without the prior written approval of TTD.

### **C. Statement of Proposal Withdrawal**

To withdraw a proposal, the Responding firm must submit a written request, signed by an authorized representative, to the Contract Coordinator. After withdrawing a previously submitted proposal, the Responding Firm may submit another proposal at any time up to the deadline for submitting proposals.

TTD shall not accept any amendments, revisions, or alterations to proposals after the deadline for proposal submittal unless such is formally requested, in writing, by TTD.

### **E. Statement of Proposal Errors**

Responding firms are liable for all errors or omissions contained in their proposals. Responding firms shall not be allowed to alter proposal documents after the deadline for submitting a proposal.

#### **F. Incorrect Statement of Proposal Information**

If TTD determines that a responding firm has provided, for consideration in the evaluation process or contract negotiations, incorrect information which the responding firm knew or should have known was materially incorrect, that submittal shall be determined non-responsive, and the proposal shall be rejected.

Any irregularities or lack of clarity in the RFP must be brought to TTD's attention as soon as possible so that corrective addenda may be furnished to all Proposers.

Alterations, modifications or variations to a proposal may not be considered unless authorized by the RFP or by an addendum or an amendment to the RFP.

Proposals which appear unrealistic in the terms of technical commitments, lack of technical competence, or are indicative of failure to comprehend the complexity and risk of this contract, may be rejected.

Proposer understands and acknowledges that the representations above are material and important, and will be relied on by TTD in its evaluation of a proposal. Any misrepresentation by a Proposer shall be treated as fraudulent concealment from TTD of the true facts relating to the proposal.

#### **G. Assignment and Subcontracting**

The Proposer and proposed Subcontractor(s) may not subcontract, transfer, or assign any portion of the contract without prior, written approval from TTD. Each subcontractor / subconsultant must be approved in writing by TTD. The substitution of one subcontractor / subconsultant for another may be made only at the discretion of TTD and with prior written approval from TTD.

Notwithstanding the use of approved subcontractor/subconsultant, the selected firm(s), if awarded a contract under this RFP, shall be the prime contractor and shall be responsible for all work performed.

A proposal submitted in response to this RFP must identify any subconsultants, and outline the contractual relationship between the awarded Proposer and each such subconsultant.

The awarded Proposer will be the sole point of contract responsibility. TTD will look solely to the awarded Proposer for the performance of all contractual obligations which may result from an award based on this RFP, and the awarded Proposer shall not be relieved for the non-performance of any or all of its subconsultants.

#### **H. Proposal of Additional Services**

If a responding firm indicates the capability and offers services in addition to those required by and described in this RFP, these additional services may be added to the contract before contract signing at the sole discretion of TTD. The cost for any such additional services shall be mutually agreed upon by the selected firm(s) and TTD, and incorporated into the contract before contract signing.

#### **I. Licensure**

Before a contract pursuant to this RFP is signed, the selected firm(s) must hold all necessary, applicable business and professional licenses. TTD may require any or all responding firms to submit evidence of proper licensure.

#### **J. Disclosure of Submittal Contents**

All proposals and other materials submitted in response to this RFP procurement process become the property of TTD and will not be returned. Selection or rejection of a submittal does not affect this right. All proposal information, including any detailed price and cost information, shall be held in confidence during the evaluation and selection process. Upon the completion of the evaluation and selection process, indicated by approval of a contract for services emanating from this RFP by the TTD Board, the proposals and associated materials shall be open for review by the public to the extent allowed by the *California Public Records Act*. By submitting a proposal, the responding firm acknowledges and accepts that the contents of the submittal and associated documents shall become open to public inspection.

#### **K. Proprietary Information**

The master copy of each proposal shall be retained for official files and will become public record after the award of a contract unless the proposal or specific parts of the proposal can be shown to be exempt by law. Each responding firm may clearly label part of a submittal as "CONFIDENTIAL" if the responding firm thereby agrees to indemnify and defend TTD for honoring such a designation. The failure to so label any information that is released by TTD shall constitute a complete waiver of all claims for damages caused by any release of the information. If a public records request for labeled information is received by TTD, TTD will notify the responding firm of the request and delay access to the material until seven (7) working days after notification to the responding firm. Within that time delay, it will be the duty of the responding firm to act in protection of its labeled information. Failure to so act shall constitute a complete waiver.
