Architectural And Engineering Services

For

Aquatic Invasive Species Inspection Station, Mobility Hub Facilities, and Vault Restroom
at Spooner Summit

(State Route 28, Douglas County, Nevada)

Questions	Response
I am inquiring to ask if there is construction cost estimate or budget associated with the RFP D/B - Aquatic Invasive Species Inspection Station, Mobility Hub Facilities, And Vault Restroom At Spooner Summit (state Route 28, Douglas County, Nevada) Project.	There is no construction cost estimate or budget currently. As design develops, a construction estimate will be developed.
Is there an engineer's estimate or budget/range for this project?	There is no construction cost estimate or budget currently. As design develops, a construction estimate will be developed.
I just wanted to confirm that the Spooner Summit Aquatic Invasive Species (AIS) Inspection Station, Mobility Hub Transit Shelter, and Vault Restroom project is still in the design phase and that Dec 18 th acts as a deadline for questions on the RFP only. Dec 18 th does not act as the deadline for General Contractor bids for the project.	December 18th is the date submittals are due for design services. Acquisition and/or construction bids for facilities will be completed via separate process once design is complete
