RESPONSES TO QUESTIONS

regarding

Request For Proposals 2024-001

Project Engineering & Environmental Services
for

State Route 28 Central Corridor Sand Harbor to Thunderbird Cove Trail, Transit and
Safety Improvements

Questions	Response
<ul style="list-style-type: none">The RFP states “5. Cost proposals or elements of cost shall be submitted separate from the technical/qualifications proposals, since these shall not be considered in the evaluation, ranking and selections phase”. Can TTD provide some clarity on when the fee proposals are due considering technical/qualifications evaluations won’t be completed until January 2nd as stated in the RFP with a notice of intent to award?	Please see addendum #1. The proposed schedule for issuing an intent to award on January 2 and awarding project on January 8 is considered aggressive, but TTD staff intends to maintain this schedule if possible.
